The Woman's Club of Evanston's annual Revue is one of the club's premier fundraising events. The show is written, produced and performed by members and friends of the WCE. The entire net proceeds will benefit Girls Play Sports.

GPS is a non-profit organization founded in Evanston dedicated to fostering leadership skills and confidence in girls through participation in a wide variety of sports. GPS programs engage girls in multiple sports without a long-term or expensive commitment. Leveraging high school athletes as instructors, GPS programs provide girls with female role models.
